## Foliar fertiliser for roses

GroGreen® Feed & Shine® Roses Concentrated is a specially-developed micronutrient fertiliser for all types of roses (except for the Rosa Rugosa group). Applied once a week, it will ensure that roses stay healthier and better able to withstand all environmental pressures. GroGreen® Feed & Shine® Roses is the extra supplement that, together with organic fertiliser, ensures that your roses constantly thrive. The product is environmentally-friendly and gentle towards roses and the natural environment.

Contents are micronutrients, seaweed extract and the plant oils; tea tree, clove and citronella, together with surfactant. The documented effect of the micronutrients gives strong, healthy root and plant growth, and efficiently prevents iron, copper, magnesium, manganese and zinc deficiency. The plant oils give the leaves a beautiful appearance, protecting them against the weather. The surfactant ensures that the plant fully absorbs the nutrients.

**Apply once a week**
